## CASE STUDY

# Nansulate Translucent High Heat

### Customer

NASCAR Teams (3)  
V8 Super Car Team (1)

### Location

United States & Australia

### Product

Nansulate Translucent  
High Heat  
(also sold as Nanoboost)

### ISSUE:

Need to prevent transfer of heat between car components in the engine and fuel assembly. Boost engine performance by providing thermal insulation.

### SOLUTION:

Nansulate Translucent High Heat is currently in use on cars by four professional race teams. Two teams have been using Nansulate on their cars since 2005. All teams have seen positive performance enhancement by using Nansulate to insulation components in the engine and fuel assembly to reduce heat transfer and increase horsepower and efficiency.
